

MELIK KUTLAY ATILLA

Full-Stack Developer & AI Engineer

melikatilla@hotmail.com · +90 553 607 8412 · Isparta, Turkey · linkedin.com/in/melik-kutlay-atilla · github.com/MelikKtly

Senior Computer Engineering student specializing in full-stack development with a strong focus on the Java backend ecosystem. I build production-ready systems with Spring Boot — covering security, REST API architecture, database design, and cloud deployment — and connect them to modern React frontends. Actively deepening expertise in Java (Spring Security, JPA, Microservices) while integrating LLM APIs to create smarter, AI-powered applications.

TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, Python
Frameworks	Spring Boot, Hibernate · React.js, Next.js, Node.js, Express.js, Tailwind CSS · Django, Flask
Databases	PostgreSQL, MySQL, MongoDB, Vector Databases (Pinecone, Qdrant)
AI & Data	Claude API, Gemini API, OpenAI API, LangChain, RAG, Embeddings, Function Calling
DevOps & Tools	AWS S3, Docker, Kubernetes, RabbitMQ, Redis, GitHub Actions, CI/CD, JWT, Git, Linux, Kali Linux, Burp Suite, Nmap

PROJECTS

Smart Email Writer Assistant · Personal · Full-Stack + AI

React.js · Spring Boot · Claude API · Gemini API · Spring AI · REST API · SSE · Chrome Extension

- Designed and built an AI-powered email assistant integrating both Claude (Anthropic) and Gemini (Google) APIs, enabling multi-model personalized draft generation with real-time streaming via Server-Sent Events (SSE).
- Deployed the full application as a Chrome extension, allowing users to compose AI-assisted emails directly in-browser without switching tabs.
- Applied advanced prompt engineering and function calling to enforce consistent email tone, structure, and formatting across all user inputs.

Hotel Booking System · Personal · Full-Stack

Spring Boot · PostgreSQL · React · Spring Security · AWS S3 · JWT

- Complete hotel booking platform with JWT-based auth, dual role management (admin/customer), room availability tracking, and AWS S3 file storage for room images.
- Designed a RESTful API with Spring Security for route protection, consumed by a React frontend with dynamic room management UI and real-time status updates.
- Modeled relational entities (users, rooms, bookings, roles) in PostgreSQL with proper foreign key constraints and query optimization.

Banking Application · Personal · Backend

Spring Boot 3 · Spring Data JPA · Hibernate · MySQL

- Backend banking system with account creation, fund transfers, deposit/withdrawal, and real-time balance management using Hibernate ORM with full transactional integrity and rollback on failure.
- Structured with a clean layered architecture (Controller → Service → Repository) ensuring modularity, testability, and easy extensibility for new banking features.

Fitness Log Tracker · Semester · Full-Stack

MongoDB · Express.js · React · Node.js (MERN)

- Built a full-stack MERN fitness tracker enabling users to create custom workout plans, log daily exercises with sets/reps/duration, set fitness goals, and monitor their progress over time.
- Leveraged MongoDB's flexible NoSQL schema to handle diverse and evolving workout data structures without rigid constraints, making the data model easily extendable for new exercise types.
- Developed a React dashboard with interactive charts and progress visualizations, giving users clear, data-driven insight into their workout history and health trends.

EDUCATION

Suleyman Demirel University

Sep 2021 – Present

B.Sc. Computer Engineering · GPA: 3.31/4.00 · Isparta, Turkey

- Coursework: Data Structures & Algorithms, Database Management, OOP, Data Mining, Software Engineering
- Activities: SDU SPARTANS American Football Team (Team Captain, 2021–Present) · SDU Computer Society · SDU Water Sports & Diving Club (Board Member) — 1-Star Diving Certificate

English Prep (2021–2022): Graduated 2nd in department · 88/100

Lodz University of Technology

Feb 2024 – Jul 2024

Erasmus+ Exchange · B.Sc. Computer Engineering · Lodz, Poland

- C1 English Proficiency Certificate · Coursework: OS, Computer Networks, Computer Architecture, Interactive Web Apps

ADDITIONAL

Languages: Turkish (Native), English (C1 – Advanced) · **Certifications:** C1 English Proficiency (Lodz University of Technology, 2024) · MIUUL AI Summer Camp Bootcamp (2025) · **Leadership:** Team Captain, SDU SPARTANS (2021–Present) · Board Member, SDU Water Sports & Diving Club
